Dear Hiring Manager at **Callin**,

I am writing to express my interest in the **Software Engineer** position. I have over 5 years of experience in building elegant and performant user interfaces using various technologies such as **React**, **TypeScript**, **GraphQL**, and **Next.js**. I also have a background in leading other developers, performing code reviews, and communicating effectively with clients.

Here's why I think I'm the perfect fit for this job

- I am a collaborative and growth-oriented developer. I enjoy working with and learning from other developers.
- I have experience documenting code and writing unit tests with Jest and React testing library.
- I worked with GraphQL for 2+ years
- I'm skilled in Next.js and other SSR technologies such as Gatsby.js and Astro.

In my previous roles, I have successfully delivered several web-based projects for different clients and industries. Some of my notable achievements include:

- Collaborating with a team of 4 to launch 2 accessible, responsive websites with light/dark themes in 1 week, achieving 100% Lighthouse score with optimized SEO and accessibility.
- Creating UI component library following a design system and documented on Storybook.
- Communicated with clients to develop and document website requirements in an agile environment.
- Enhancing developer experience by developing a proprietary types SDK for API type safety.
- Launching 2 responsive, accessible SEO-focused websites for BMW Foundation and TwentyThirty, increasing the reach to thousands of organic monthly users.

I am interested in working for your company because I believe I can contribute to your vision of making podcasting easy and accessible. I value innovation, community and quality, and I am eager to learn from your talented team and apply my skills and knowledge to your projects.

Thank you for your consideration of my application. I would love to discuss this opportunity further with you and answer any questions you may have.

Sincerely,  
Ahmed Habeila
