Dear Hiring Manager at **Ts Analytics Canada Ltd.**,

I am writing to express my interest in the **Web programmer** position. I have over 5 years of experience in building elegant and performant user interfaces using various technologies such as **JavaScript**, **React.js**, and **SQL**. I also have a background in leading other developers, performing code reviews, and communicating effectively with clients.

In my previous roles, I have successfully delivered several web-based projects for different clients and industries. Some of my notable achievements include:

- Collaborating with a team of 4 to launch 2 accessible, responsive websites with light/dark themes in 1 week, achieving 100% Lighthouse score with optimized SEO and accessibility.
- Creating UI component library following a design system and documented on Storybook.
- Communicated with clients to develop and document website requirements in an agile environment
- Leading team of 4 front-end developers in developing a front-end monorepo architecture with 2 apps and 5 independent libraries for Calqulate.
- Enhancing developer experience by developing a proprietary types SDK for API type safety.
- Launching 2 responsive, accessible SEO-focused websites for BMW Foundation and TwentyThirty, increasing the reach to thousands of organic monthly users.
- Building back-end API with Express.js and Firebase for authentication, file uploads, and emails for an educational platform.
- Conducted system analysis, designed and implemented eCommerce website

I am interested in working for your company because I believe I can contribute to your vision of creating innovative and user-friendly web solutions. I am eager to learn from your talented team and apply my skills and knowledge to your projects.

Thank you for your consideration of my application. I would love to discuss this opportunity further with you and answer any questions you may have.

Sincerely,
Ahmed Habeila
